**KATHABAR-NIAGARA NEW TECHNOLOGY PRESENTATION  
AT 2010 ASHRAE/AHR SHOW**

(Buffalo, NY) Kathabar Dehumidification Systems President, Peter G. Demakos, P.E., will be giving a presentation on the Kathabar Secure Environment System™ (SES) as part of the ASHRAE/AHR New Product Technology Theater. The presentation, which takes place on the AHR Show Floor on Monday, January 25, 2010 at 3pm, will discuss benefits and applications of this technology as well as how the system operates.

Ecologically safe SES, introduced in 2009, prevents the contamination of building ventilation air from outside sources. Designed for government, military, medical, laboratories, and other critical facilities, Kathabar's SES:

- Acts as a scrubber to capture airborne contaminants
- Helps protect interior spaces against outside biological attacks, pandemics/epidemics, viruses/germs, and airborne matter
- Ensures no microbiological cross-contamination

Kathabar-Niagara will also be exhibiting at the ASHRAE/AHR show (January 25-27, 2009 in Orlando, FL) at booth number 3091.

Niagara Blower Company acquired the assets of Kathabar, Inc. from Ross Air Systems in January 2008 and formed the subsidiary Kathabar Dehumidification Systems, Inc. With Kathabar and "No-Frost" product lines, Kathabar-Niagara is a world leader in liquid and dry desiccant dehumidification technologies.

**About Kathabar**

Kathabar Dehumidification Systems, Inc., a Niagara Blower company, engineers and manufactures reliable, highly efficient dehumidification equipment delivering precise humidity control while improving sanitation and energy efficiency. With liquid and dry desiccant systems for dehumidification and energy recovery, Kathabar provides a wide range of solutions options. For more information, contact Kathabar by phone at 732-356-6000, by email at [sales@kathabar.com](mailto:sales@kathabar.com), or visit [www.kathabar.com](http://www.kathabar.com).

**About Niagara**

Niagara Blower is a design-build manufacturer providing engineered solutions to heat transfer applications at power, process, refinery, food and brewing facilities worldwide since 1904. Niagara's customized product lines include WSAC™ closed-loop, evaporative coolers and condensers and "No-Frost"® liquid desiccant dehumidification systems. For more information, contact Niagara by phone at 716-875-2000, by email at [sales@niagarablower.com](mailto:sales@niagarablower.com), or visit [www.niagarablower.com](http://www.niagarablower.com).
