

## Penta to Present *Mechanical 360° - A Day in the Life of a Mechanical Contractor* at the 2010 AHR Expo

Penta's Integrated Mechanical Field Service and Construction Software Reduces Redundant Work, Speeds Capture of Costs and Billable Activity, and Empowers Decision Makers with Daily Management Information

Milwaukee, WI – January 19th, 2009 - Penta Technologies, Inc., a leading provider of [construction software](#) and [field service software](#) to the Mechanical/HVAC industry, today announced that it will be demonstrating *Mechanical 360° – a Day in the Life of a Mechanical Contractor* Productivity Presentation for Mechanical and HVAC Contractors at the 2010 AHR Expo in Orlando.

Whether installing new building systems, performing energy saving retrofits or responding to an emergency service call, Penta Software helps North America's top mechanical contractors:

- **Unify** Financial, Project and Service Management
- **Simplify** multi-location, multi-company and inter-company accounting
- **Empower** decision-makers with daily management information in an analytical format and intuitive user interface
- **Facilitate** payrolls, including extensive capabilities to accurately pay employees and fund union benefits
- **Mobilize** field service technicians

The *Mechanical 360° - a Day in the Life of a Mechanical Contractor* presentation will cover the following Integrated Penta Software applications:

- [Multi-Company Financials \(GL,AP,AR,Billing\)](#)
- [Job Cost Accounting](#)
- [Project Management](#)
- [Field Service Management](#)
- [Mobile Field Service](#)
- [Payroll](#)
- [Analytics and Reporting](#)
- [Document Management and Workflow](#)

### Financials:

### Projects:

### Service:

AHR Expo attendee contractors can experience a 360° day in the life of a mechanical contractor by visiting Penta at the AHR Expo in Orlando at Booth #2185.

**When:** Monday, January 25th through Wednesday, January 27th

**What:** *Mechanical 360° - A Day in the Life of a Mechanical Contractor*. Mechanical/HVAC contractors will learn how they can speed capture of costs and billable activity, accelerate service to cash cycle, reduce redundant work and enhance management visibility of field activity.

**Why:** With the challenging credit environment, Mechanical Contractors are looking for new ways to optimize and grow their service and maintenance businesses, as well as streamline time and resource-intensive business processes in time for the next up-swing in new construction work.
